

Greetings!

The PA Planning Team is thrilled to announce an updated feature within the Comprehensive Planning web application that will provide you with strategies and resources to aid in the development of your Action Plans. Starting April 1, 2016, the link to the “PDE Recognized Strategies” will be changed to “Import Strategy from Resource Bank”. From the help of various school leaders and Intermediate Unit contacts, the PA Planning Team has created a repository of strategies and/or resources for schools to select after identifying priority goals within the system. As a developmental upgrade, you will now be able to select a strategy from the “Import Strategy from Resource Bank” link, import it, and then explain how your LEA plans to implement that strategy. We have included snapshots below of the new upgrade and, as always, would appreciate your feedback. If you have strategies/resources to share or ideas to improve the bank even further, please let us know!

District/Charter Level Plan>View Action Plans – After identifying your priority goals, you will have the chance to select strategies that have a high probability of helping you attain your goal. To access the repository of strategies and resources, select the “Create or Import a Strategy” link.

Here you may either enter in your own custom strategy or select the “Import Strategy from Resource Bank” to view the updated repository of strategies.

You may expand any of the titles to preview the description of the strategy/resource and also the research behind it. To select one of the strategies, simply click "Import" and the strategy will be brought into your plan.

Import a Strategy

▼ **"Data Well"**

In a common area In your school (like a teacher prep area), create a display to post progress on using data to inform instruction. Separate the common assessment data by grade level, then by teacher. Display monthly success rates by using different colored push pins. Green = on level or above, Yellow = moving in the right direction, but not quite yet on level, Red = below level (at risk). Resource: <http://effectivestrategies.wiki.caiu.org/Using+Data>

SAS Alignment: Assessment

▶ **"Show Me Your Cards"**

Import

You will now have the ability to edit any of the description (if needed), while also adding in a description of how your LEA will implement this strategy and why you feel it would be an effective strategy to use to reach your goal(s). Please note that when a strategy is imported from the Resource Bank, the SAS alignment will also be checked for you as well. Please feel free to adjust that area if needed.

Create Strategy

Title
"Data Well"

Describe the research-based strategy/best practice and how the LEA plans to implement this strategy.

In a common area In your school (like a teacher prep area), create a display to post progress on using data to inform instruction. Separate the common assessment data by grade level, then by teacher. Display monthly success rates by using different colored push pins. Green = on level or above, Yellow = moving in the right direction, but not quite yet on level, Red = below level (at risk). Resource: <http://effectivestrategies.wiki.caiu.org/Using+Data>

Align to SAS Elements
Optionally select the SAS Elements to which this strategy applies.

Standards ? Assessment ? Curriculum Framework ?
 Instruction ? Materials & Resources ? Safe and Supportive Schools ?

Create or **Cancel**

You may use a Strategy that has been defined by PDE.
Import Strategy from Resource Bank

You may make a copy of a Strategy that has been defined by a school in this district.
Import From School...

We hope you enjoy the updated feature and take advantage of the plethora of resources that are now at your fingertips! If you have any questions about this information, please contact our helpdesk by emailing paplanning@caiu.org or calling 717-732-8403.

Thank you!
The PA Planning Team
